

The AirLITE™ Cushion by ROHO®, Inc.

The AirLITE Cushion from ROHO, Inc. provides individuals support and comfort in an effective and easy-to-use manner. Designed for the individuals comfort and peace of mind, the AirLITE cushion combines the benefits of a sealed air support pad with a durable contoured foam base, all encased in a fluid resistant, breathable cover. The AirLITE cushion requires no assembly, no preparation and no upkeep. Just an occasional wipe of the fluid resistant, breathable cover. And at only two and one half (2 1/2) pounds it continues the tradition of light weight, effective cushioning products from ROHO, Inc.

Features and Benefits

Built-in Cover: Covering material is fluid resistant and breathable and can be cleaned with soap and water.

Air Support Pad: Using patented DRY FLOATATION® technology, the sealed air support pad improves comfort and the long term performance of the cushion.

Non-Skid Bottom: Insures security of cushion in chair.

Lightweight: The AirLITE cushion is approximately two and one half (2 1/2) pounds making it easy to transport and handle and minimizes fatigue of the individual.

Positioning Contour Base: The durable foam base is designed with leg troughs and abductor support for optimal leg positioning. The base is pre-formed for a comfortable sitting position, providing lower extremity control and stability.

24 Month Limited Warranty
